**REPLY TO RESTRICTION REQUIREMENT OFFICE ACTION**

Customer Service Window, Mail Stop Amendment  
Honorable Commissioner for Patents  
U.S. Patent and Trademark Office  
Randolph Building  
401 Dulany Street  
Alexandria, Virginia 22314

Sir:

Applicants acknowledge receipt of the Office Action mailed March 9, 2007, entirely in the nature of a restriction requirement, purportedly on the basis of lack of unity of invention under PCT Rules 13.1 and 13.2. Applicants Reply below.

First, however, applicants respectfully request the PTO to acknowledge the receipt of applicants' papers filed under Section 119.

Restriction has been required among what the PTO deems as being three (3) patentably distinct inventions. As applicants must make an election, even though the requirement is traversed, applicant hereby respectfully and provisionally elects Group I (claims 1-26), with partial traverse and without prejudice.

Appln. No. 10/507,101  
Amd. dated April 9, 2007  
Reply to Office Action of: March 9, 2007

Applicants accept the requirement insofar as Group III is concerned, but the restriction is traversed as regards Group II in relation to elected Group I.

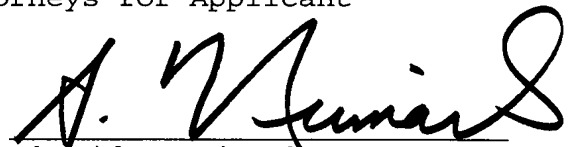

The Office Action states that there is lack of unity of invention, but the reasons given do not relate to PCT Rules 13.1 and 13.2, but instead relate to standard U.S. restriction practice, which of course does not apply in the present case. Applicants' claims of Groups I and II share the same special technical feature as called for in claim 1. There is no lack of unity of invention.

Accordingly, applicants respectfully request withdrawal of the requirement as between Groups I and II, and examination of all the claims on the merits. (The Group III claims have been cancelled without prejudice by preliminary Amendment, applicants relying on their right to file a divisional application with respect to the Group III claims without any penalty whatsoever, applicants relying on §§121, 120 and 119.)

Respectfully submitted,
